Thank you.

Mr. DeAngelis -

Words alone cannot express my gratitude and thankfulness for the beautiful shadow box you sent to me and my family. I can totally see all the love and commitment you share towards your country and Military as well as the pride. I cried when I opened the package, it's so beautiful. I hung it up immediately in our front room →

for us all to enjoy and REMEMBER.

Erik's passing has been very difficult for us all but I want to reassure you if at ^{all} that Erik passed due to natural causes. ~~Hallmark~~
It was his heart I just wanted to share that with you, so you wouldn't feel so bad! if it helps at all.

We were very very proud of Erik, he excelled very quickly at all he attempted. I know he would of gone far in the military.

Through her paintings, world-renowned nature artist Marjolein Bastin reminds us to pause and experience the wonder and beauty of our world. "There is incredible richness all around us," says Marjolein "and we only have to open our eyes to see it, to enjoy it, to feel it."

I also wanted you to know I have a great admiration for the "band of brothers" as well. I love American war history and watched the movie and read a few books about those great men.
