Dear Frank + Elizabeth

My name is Kim McLime - the mother of PFC Shelby G. Ferriello who was killed in action Oct. 9-2006.

The Maximins have just presented me with the Shadow Box from you - when they handed it to me - and I read your letter - I felt as if my heart was comforted with yours. I am so honored to have received such a special gift that will hang on my wall and I will treasure forever - and continue to tell the story over + over of how "Frank + Elizabeth, showed so much love to honor my son like this - and how Frank fought in WWII. I know someday Shelby and you will meet in Heaven and he will also thank you,

There are no words to thank you enough for the beautiful memory of my son you have gifted me with.

I always thought my arms were long enough and love strong enough to protect my son - now I know the only arms that were long enough and love strong enough were Gods.

My heart will always ache until Shelby comes down that road for me someday - until then people like you + Elizabeth, help mind a broken heart.

All my love + Thanks to both of you
Kim McLime
