

4-14-07

Dear Frank & Elizabeth,

My wife Barbara and I want to thank you for your generosity and kindness for making the beautiful shadowbox to display my son's medals and ribbons. It is a lovely piece of work and stands proudly on the wall of our living room. We take great pride in his sacrifice.

We, of course, suffered a great loss but are proud our son wanted to serve his country and wish more people felt like he did. I know the war is not popular but our sons must serve their country and hope that the leaders will make the right decisions.

But that is not why I am writing to you and Elizabeth. Barbara and I just wanted you to know that we are glad to know that there are men like you willing to give time, money and energy to honor boys like mine ready to give their lives for their country.

We think what you are doing is wonderful and we are proud to display your work and his medals in our home till the day we die.

Thank you both very much for all you're doing for my boy and all the others. Take him.

Sincerely,
Tony & Barbara Saba
