

16 April 2007

Dear Frank,

It was with great pride and admiration last week when I received the shadow box which you made in memory of our son Jonathan. To say the least, I was in total awe of your great skills in constructing and displaying the shadow box and the medals which Jonathan earned while he served in the US Marines. My wife Marianne and I "Thank You" for such a fitting memorial which we will proudly display in our living room, next to Jonathan's military picture.

I am also sending a copy of the first news story that came out after Jonathan's death with his picture in it. It seems unreal that Jonathan has been gone 3 months ago today. I have lost both of my parents and my 2 brothers have also gone before me. But losing Jonathan was the hardest thing in life I have ever had to deal with. Never have I experienced such depths of depression and feelings of utter loneliness and despair. They say that time heals all but Jonathan's passing will leave a scar in me that will never heal.

Please except our token of appreciation to help continue your very fitting memorials to families of other fallen Marines, America's Greatest Heroes!

I Thank You again, and salute you from one veteran to another veteran!

Sincerely Yours,  
James E. Schulz
