

10/28

Dear Frank,

Words cannot convey how much your gift of an award frame has meant to me and to my wife. Being totally unexpected, it's impact has been magnified many times over! You honor me... you honor my family... and you honor our Corps. For this, I am forever in your debt!

The award frame itself is magnificent... accurate in every detail and completed with/by the hands of an artisan. You should be extremely proud of what you have created! The good Lord has blessed you with a tremendous talent and you are using it in wonderful ways. I can tell you that Wes Foy, Gen. Wilson, then Johnson, Gen Mundy etc all proudly display your creations.... so will I!

I am sorry to learn of your operation... I hope that everything turned out fine and that you will soon be 100%. When you are well and able to travel, we would love to have you and Elizabeth back down to Quantico to visit. Your last stay was too short!

Again, thank you so much for your thoughtfulness... it means an awful lot to the Krukowski family!

Senior Fidelis
